Why INEX 2026?

Building on the remarkable success of INEX 2024, the exhibition continues to grow as the leading international platform for nuclear energy, technology, and business opportunities.

Key Figures from INEX 2024

101 Exhibitors from **10** Countries

400 Booths
showcasing the latest innovations

14,503 Visitors
from around the world

120 Business Meetings generating USD **457** million in trade deals.

Co-located in 2026

INEX 2026 will take place alongside two major international nuclear events

**Pacific Basin
Nuclear Conference
(PBNC 2026)**

**Korean Atomic Power
Annual Conference
(KAP 2026)**

Korea's Strategic Commitment to Nuclear Innovation

Under its current administration, the Korean government is elevating the nuclear sector as a key driver of carbon neutrality, energy security, and global competitiveness. Major policy initiatives support **next-generation reactor development**, export promotion, and institutional coordination to accelerate the industry's growth. Together with INEX 2026 and its co-located forums, this event will stand at the forefront of global nuclear innovation.

INTERNATIONAL NUCLEAR EXPO 2026

BUSAN

Busan is the second largest city in Korea. Its deep harbor and gentle tides have allowed it to grow into the largest container handling port in the country and the fifth largest in the world. The city's natural endowments and rich history have resulted in Busan's increasing reputation as a world class city for tourism and culture, and it is also becoming renowned as a hot spot destination for international conventions.
